👤 About Me

I am a passionate software developer with a strong foundation in web and app development. I specialize in creating dynamic and user-centric solutions using modern technologies such as Next.js, JavaScript, React, and MongoDB for web and React native, NativeWind for mobile applications. I am committed to turning innovative ideas into functional, real-world solutions. I bring an enthusiastic attitude and a willingness to continuously learn new technologies, ensuring that I can adapt to and thrive in any development environment. Whether it's web, app development, or exploring new domains, I am excited to contribute and grow within a forward-thinking company.

🎓 Projects

AI SaaS Application

In my role as a Research and Development Associate, I was responsible for analyzing complex data sets, and implementing innovative solutions to meet project goals. I developed strong problem-solving skills, attention to detail, and the ability to work under tight deadlines, which allowed me to streamline processes and deliver high-quality results.

Video Calling Application

Built a high-definition video calling application offering real-time communication, screen sharing, and a user-friendly interface. Utilized React, Next.js, and Tailwind CSS to deliver a robust and responsive platform.

WomenCare Hospital Website

Developed a dynamic website for a women's healthcare center with features like online appointment booking, patient registration, and user subscriptions. Built using React, Next.js, and CSS to ensure a seamless, responsive, and user-friendly experience.

💼 Experiences

Crenza Pharmaceuticals Pvt Ltd — Jun-2019 -Sep-2021

Research and Development Associate

In my role as a Research and Development Associate, I was responsible for analyzing complex data sets, and implementing innovative solutions to meet project goals. I developed strong problem-solving skills, attention to detail, and the ability to work under tight deadlines, which allowed me to streamline processes and deliver high-quality results.

Granules India Limited — Oct-2021 -Mar-2023

Quality Assurance Executive

During my time as a QA Executive, I worked with industry-standard Document Management Systems (DMS) and Quality Assurance Management Software (QAMS), ensuring compliance with regulatory standards. Collaborating with cross-functional teams to streamline workflows and improve operational efficiency. Developing and maintaining digital documentation systems, focusing on data integrity and secure access.
Implementing software solutions to track and manage compliance activities, which enhanced audit readiness and quality control.

Next JS Frontend Developer — Mar-2023 -Till Now

As a freelance Next.js developer, I specialize in developing responsive, interactive front-end components using Next.js, React, and Tailwind CSS.

Collaborating with clients to understand project requirements and deliver customized solutions that align with their business goals. Optimizing web applications for speed, SEO, and accessibility, ensuring a flawless user experience across devices.
